

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING

The experience of Mr. E. J. Tou-palik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief.

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

Ask Many Questions.

An assistant depot master at Pad-dington, London, took, by means of a number-recording watch, a record of the number of questions asked by the public during a single week. The total was 2,188. Some of the questions were extremely foolish.

STOMACH ON A STRIKE

"Pape's Diapiesin" puts Sour, Gassy, Acid Stomachs in order at once!

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food—just eat a tablet or two of Pape's Diapiesin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antiacid is Pape's Diapiesin, which costs so little at drug stores. (Adv.)

CREEK INDIAN MAKES BIG CONTRIBUTION TO DRIVE

Jackson Barnett, full-blooded Creek Indian of Mayetta, Okla., who, along with a good many other Red Men, grew rich out of the discovery of oil upon his land, has given \$200,000 to the Baptist Seventy-five Million Campaign, though the actual drive for subscriptions will not be made until the week of November 30-December 7. The Indian has converted several years ago and has been an active layman in the church at Maryetta, of which the Rev. E. D. Cameron is pastor.

Early in the campaign the pastor presented the claims of the various interests to Mr. Barnett and a few days ago the wealthy Indian expressed a readiness to talk with other representatives of the campaign on the matter. The campaign headquarters were advised of the hour the conference was to be held and asked to pray that God would lay it upon the heart of Barnett to do a really large thing. Accordingly the general director and his office force held a special prayer service at that hour and a short while afterward a telegram came from Maryetta announcing that the Indian, himself a convert under the preaching of missionaries, had given \$200,000 to the campaign to help send the gospel to others in the homeland and throughout the world.

GIANT CHICKENS AND EGGS PROMISED BY POULTRY MAN

Super-chickens and eggs, two or three times their present size, at a cost not much greater than present prices, was predicted by Alton E. Briggs, Boston, president of the National Poultry, Egg and Butter Association, at Cleveland, Ohio, in an address to the 1,000 delegates attending the opening session of the thirteenth annual convention. Mr. Briggs said a new type of super-hen is being bred and in the near future would reach the public, thus doing much to lower the cost of living.

TOO SHORT TO DO UP AND STILL FALLING

A Little "Danderine" Stops Your Hair Coming out and Doubles Its Beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair to grow strong, thick and long and become soft, glossy and twice as beautiful and abundant. (Adv.)

WOMAN LOSES \$5,000

The suit that was filed in the St. Louis Circuit Court a few days ago by a St. Louis woman who alleges she lost \$5,334 in a fraudulent oil stock transaction, would not have been necessary had she invested in U. S. Securities that the Government is now urging its citizens to buy.

The woman wanted 5,000 shares in an oil concern that promised good returns. Her broker, she alleges, said he could obtain the stock for \$2 per share. She gave cash mentioned and her notes for the balance, and then learned, she alleges, that the stock cost only \$1 per share.

There is absolutely no chance for fraud in the purchase of the United States Treasury Savings Certificates that may now be obtained through the Federal Reserve Bank or the Governmental authorized agency. These new securities are issued in denominations of \$100 or \$1,000 and the buyer takes no chance.

Of course Uncle Sam does not promise any fabulous interest. But he does promise a splendid return. The government pays 4.27 per cent. on these bonds, and when tax exemptions are reckoned, the investment just above stacks up with the six per cent. investments offered in substantial commercial enterprises.

But the beauty of an investment with Uncle Sam is that one's principal is absolutely secure, and the interest is certain to be forthcoming on the promised day.

MEXICANS UNEARTH FOSSIL OF A GIANT 32 FEET TALL.

The fossilized remains of a giant measuring thirty-two feet ten inches in height, according to report, were recently discovered by workmen near the little village of Nanacamilpa, State of Vera Cruz.

The natives, who still cling to many of the traditions of their Indian ancestors, declared the giant was related to the gods of their forefathers. They erected a catafalque in the plaza, upon which the giant rested in state for many days covered with flowers and at night carefully guarded.

The discovery attracted the attention of noted scientists. Manuel Gamio, director of anthropology at the National Museum, expects to soon leave the Nanacamilpa to investigate. He is inclined to believe the fossil is that of a pre-historic vertebrate, not human.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus-right off, root and all, without one bit of pain or soreness. Truly! No humbug!

BOURBON FARMING CONDITIONS.

Heavy rains have revived the vegetation in the county and started the small streams into activity, so that stock water is now abundant on farms. Corn cutting is practically over, and most of the fields have been seeded to wheat, rye or barley. Tobacco cutting has been completed. The work of stripping and preparing the weed for the market is now in progress. Livestock sales are inactive and very little stock is being shipped to the markets. Farmers are rounding up their work on the farms, and making ready for the coming of winter.

CHAMBERLAIN'S COUGH REMEDY.

This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case. (oct-adv)

PIPELESS CALORIC FURNACE
The Original Patented Pipeless Furnace

Practical
Scientific
Economical

The Caloric system of heating is an entirely new application of the principles of conveying heat. Cold air falls—warm air rises. The Caloric's one register is built to take advantage of this simple scientific fact. The outer channel sucks cold air out of the house, carries it to the bottom of the furnace, where it is purified, and passes over the radiation chamber up into the house by the inside warm air channel. The warm air is lighter and travels upward rapidly. Although no perceptible draft is noticed, the warm air seeks out every nook and corner in each room so that the temperature over the entire house is practically the same, the sewing room upstairs being as cozy as the living room where the register is usually put.

We are enthusiastic about the Caloric. The remarkable results obtained by more than seventy-six thousand owners last year during the coldest weather proved our every claim. We KNOW that it will make good and save 35% of your fuel bill.

Come in during Demonstration Week. You will not be obligated, and may learn many things that will mean more and better heat with a decided saving of money.
